Web/Software Developer  
[linkedin.com/in/dblythe/](https://www.linkedin.com/in/dblythe/)

## Current Goals

Seeking a position in IT/Technical support (preferably remote/hybrid), where I can apply a broad range of experience in software systems and computer applications, working on a team whose focus is on best-in-class professional service. I am eager to learn, and to provide prompt and effective solutions.

Currently Enrolled in Google's IT Support Professional Certification Course on Coursera

## Key Talents

Quick study when embracing new applications, technologies, and development frameworks  
Retail Sales, Management and Customer Service experience in varied settings and markets  
Strong documentation and collaboration skills carried over from Agile development teams
